## **Wave2 Teams with OMNICOMMANDER to Create Cutting-Edge Mapping & Search Integration**

**April 27, 2022** – Wave2, a cloud-based SaaS product company, has partnered with OMNICOMMANDER, a website design, marketing, and cybersecurity firm, to create a new and innovative website integration called CASHCOMMANDER™. The new integration generates an intuitive platform for mapping and search inside a credit union’s website.

CASHCOMMANDER provides credit union members with a simple, interactive tool to quickly and easily find credit union branches and ATMs as well as surcharge-free ATMs, shared branches, and retail placements. The system is ADA compliant and optimized for mobile-first functionality for complete accessibility and SEO performance.

CASHCOMMANDER is an inclusive and easy-to-use experience without additional maintenance headaches for credit unions. All new features and future enhancements automatically update, enabling the most recent innovations with zero extra work. The system is the culmination of OMNICOMMANDER’s focus on credit unions combined with Wave2’s over 25 years of experience in developing SaaS and locators for financial institutions.

“Wave2 is very excited about the opportunity to deliver CASHCOMMANDER to OMNICOMMANDER credit unions,” said Jason Green, Co-Founder of Wave2. “OMNICOMMANDER has proven its dedication to delivering great member experiences, innovative tools, and unmatched control for their credit unions. Our powerful locator technology, real-time updating capabilities, insightful usage tracking, and data visualization tools provide yet another way you can ‘control everything’.”

### **About OMNICOMMANDER**

OMNICOMMANDER is a veteran-owned and operated website design, marketing, and cybersecurity firm that focuses on the credit union industry. With a dedication to member experience, the company ensures every touchpoint has a remarkable interface. Alongside the incredible design, OMNICOMMANDER creates websites with built-in mobile responsiveness, SSL encryption, and observance of ADA guidelines. OMNICOMMANDER provides marketing services, including targeted marketing, branding, SEO, video creation, and social media, to enhance every aspect of a brand's digital presence. OMNICOMMANDER's cybersecurity division

CYBERCOMMANDER is the industry's first cybersecurity provider focused on providing a holistic yet affordable cybersecurity solution for credit unions, offering customized compliance solutions that help our partners stay two steps ahead of cybercriminals.

**About Wave2**

The Wave2™ Branch & ATM Locator is an interactive location search and mapping tool for use inside the web and mobile offerings of credit unions, community banks, and other financial institutions. It allows users to find any of the institution's branch or ATM locations, its surcharge-free ATM network locations, and its shared branch locations, all in one tool without having to leave the institution's trusted environment. Visit <https://wave2locator.com> for information and to see interactive and recorded demos.
